

Frequent asked Question

1. What is AlphaSpin?

AlphaSpin is a powerful holistic wellness tool infused with Proprietary Spinning Frequency that transfers spinning energy so that a quantum energy field is established. The spin can be used in the most efficient way to get the maximum wellness benefits. The unique seven rims and pointed STAR were specially designed to complete cycles and multiply their effect of spinning resonance resulting in a waterfall effect typical of scalar energy which changes the surface tension in liquids.

2. How does it work?

AlphaSpin was designed taking into account the effect of a funnel that is formed when spinning energy moves in the shape of a vortex. The spin manifests its effect in living systems by means of efficiency. The unique seven rims were designed to maximize the effect of spinning resonance resulting in a waterfall effect which changes the surface tension.

The resonance and vibration of spinning frequencies of the AlphaSpin are transferred through water, light, and air. It is believed that the natural resonance of the AlphaSpin is similar to that found in many water springs around the natural place such as longevity village.

3. Is Alphaspin safe to use?

Alphaspin is tested safe for application by some independent laboratories agency. It is tested free of radiation by the Malaysia Nuclear Agency and Dr. Pelzer und Partner Laboratory Germany. It is also tested Foodgrade Acceptability by the Dr. Pelzer und Partner Laboratory Germany.

4. How does Schumann Frequency and Alpha Wave are related to AlphaSpin?

The Schumann Frequency is also known as Earth Resonance Frequency which value is 7.83 Hertz (Hz). The Alpha Wave frequency range goes from 7.5 Hz to 13.5 Hz, and it is the rhythm of a human brainwave generated mainly by the right hemisphere of the brain cortex, that exhibits overall mental coordination, calmness, alertness, mind/body integration, creativity, imagination the expression of artistic talents, enhanced intuition, etc. People who have been using AlphaSpin have been tested by German Energy and Bio Meridian Device and CCT Bio Meridian Device. The results have shown an improvement in their parasympathetic response of their nervous system that results in the re-establishment of harmony between the structure and function. AlphaSpin has been known to assist in the restoration of a natural frequency, so it remains the body of its own self-healing capability.

AlphaSpin

5. Does AlphaSpin got any expiry date?

AlphaSpin has no expiry date. Therefore, it can be considered as life time investment for your life to promote better and healthy lifestyle.

6. What are the benefits of using AlphaSpin?

AlphaSpin has been known to produce the following benefits :

AlphaSpin has the capacity to generate a Quantum Field and in doing so, it harmonizes the body to counteract the harmful effects of electromagnetic frequencies (EMF). AlphaSpin has the capacity to resonate and counteract the effect of mobile phones in the body, particularly the brain, and in so doing diminish the harmful effects of the radiation they emit.

AlphaSpin has been known to resonate with water molecules and change their geometry.

The resulting hexagonal structure becomes highly bio-available and easily penetrate the cell membrane.

It helps to improve quality sleep.

It helps to improve absorption and increases hydration.

It improves plant growth and seed germination.

To be used in conjunction with a humidifier or air purifier to improve the quality of air.

It helps to increase the adsorption and absorption of face and body creams.

It helps to reduce wrinkles by hydrating the skin and activating collagen and elastin.

It helps to extend the shelf life of fruits and vegetables.

It helps to improve overall mental coordination, calmness, alertness and cognition.

7. Will the Wi-Fi reduce its performance?

The Wi-Fi will not reduce its performance or even the quantum energy field as you still can surf internet and social media and make mobile phone call without disruption in the quantum energy field. The resonance frequency generated by the AlphaSpin protects the harmful impact of WiFi without interference on the transmission of the WiFi, same as the way how you energize your mobile phone frequency to protect the sender and receiver. The frequency of the mobile phone and the WiFi is the same and will not be disrupted by the AlphaSpin.

8. When Wi-Fi is still working, does it mean the negative effects of the Wi-Fi are still there, even with the AlphaSpin, will the Wi-Fi still affect our body system?

We are living in a Wi-Fi environment that cannot be avoided. However, with AlphaSpin, the body will be able to harmonize itself and counteract the harmful effects of Wi-Fi and EMFs environment. The natural resonance effect that is generated by AlphaSpin demonstrating its capacity to harmonize the body and counteract the harmful effect of EMFs.

9. What is Spinning Energy?

Spinning energy is the energy of the beginning of any process, which is the point that generates the momentum to produce a twist between standing waves. Such twist spins. Spinning energy has also been known as Zero Point Energy, Scalar energy, Ground energy, the Ether and the Energy of the Vacuum.

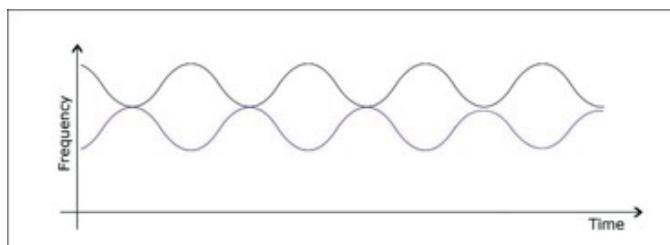

Figure 1. Two Hertzian waves sharing the same frequency. The point of contact between two Sinoidal or Hertzian waves has been known as an inflection point in mathematics. Physicists called it the zero point.

10. What is the relationship between Spinning Energy and the Quantum Energy Field?

When 2 waves share the same frequency as shown in figures 2 and figure 3, they generate a spin which angular momentum grows into a vortex as time goes by. The energy inside the vortex allows for the process of expansion and contraction depending on the direction of the spin. The field that is formed with then vortex is called the quantum energy field.

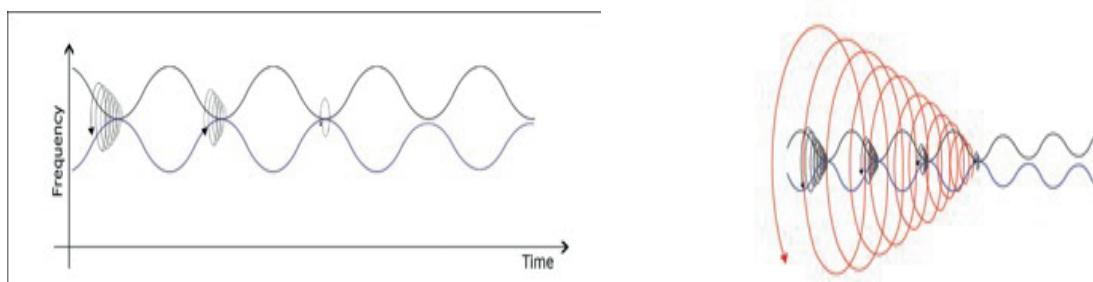

Figure 2. Spinning Energy. Spinning energy is the result of the angular momentum that is generated when two standing waves share the same frequency.

The quantum energy field shapes as a tetrahedron with angles of 109.50 as shown in figure 4. The Quantum Energy Field is then expressed as a result of the conversion of four vortexes, as shown below

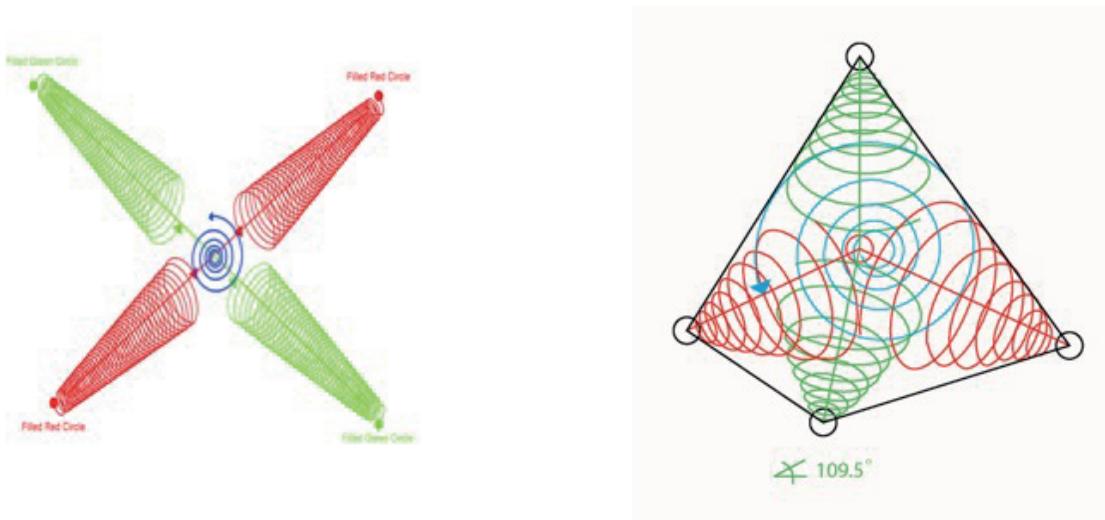

Figure 3. Expression of the Quantum Energy Field in a tridimensional system. The expression of a quantum energy field results in the formation of a pyramid capable of transmitting the energy to the immediate environment.

11. How does the AlphaSpin resonance frequency being transfer?

The resonance frequency of AlphaSpin is transferred through water, light (biophotons) and air, it is transmitted by vibration through air.

12. How do you know whether the frequency from AlphaSpin is good for our environment or body system?

AlphaSpin has been tested by the German Prognos Device and has proven to have a Positive Energy Field in Balancing and Harmonizing Body Energies by Prognos East Asia Distributor.

AlphaSpin has been tested using the CCT Bio Meridian Device and has shown good improvement in balancing Yin and Yang organs energy meridians and energy efficiency.

13. How is it being used as a Frequency Reflexology Tool?

Place the AlphaSpin on the palm of the hand, and move it following the shape of a spiral four times counterclockwise and four times clockwise on both palms.

Result: This action will facilitate the energy flow enhancing the yin and yang activity in every organ and the acupressure and acupuncture meridians.

14. Would the color mercury affect our health?

There is no such color, the coloring is embedded to the glass itself and is has been tested by the German Testing Authority and it has been certified as Food Grade Safe which means nothing that comes in contact with the AlphaSpin will cause any harm.

15. What kind of detergent to use on washing AlphaSpin?

There is no need to use any detergent with the AlphaSpin. It can be washed with warm and cold water.

16. How long will the frequency last for the water or beverages going through AlphaSpin?

It all depends on the environment and water quality that you are in, if you are under direct exposure to the sun for over 3 hours, it might not last a day. If the water is under at room temperature, it might last 1 day. However, this length of time would still depend on the environment the energized water is in, if there are a lot of EMFs around, such as radio, TV, wifi, routers, phone, computers, etc. the frequency may last a few hours only.

17. What is the effect of matching 2 AlphaSpin together?

When placing 2 AlphaSpins facing each other, the counter-clockwise and the clockwise spins will result in the formation of a diamond like structure like the one shown below.

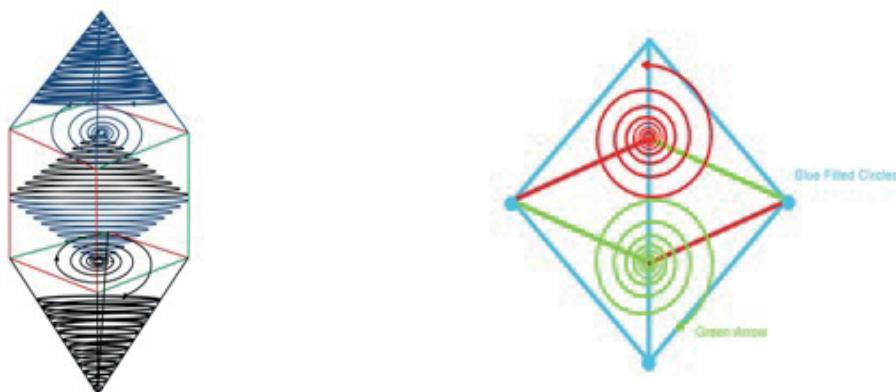

Figure 12. Formation of the Metatron Cube and the Corellis Effect. Energy flows with different spins in the northern and southern hemispheres providing stability to the system it works on. The result is a structure that is highly stable and allows for the effective transmission of energy.

18. Can the AlphaSpin cure disease?

AlphaSpin cannot be used as a medical device or tool as it is not intended to diagnose, treat or cure any disease.

It is suggested that the AlphaSpin user seek the experience of a trained physician or health care provider for diagnosis, treatment and guidance.

19. How does AlphaSpin transfees resonance as a liquid?

The AlphaSpin and Its Ability to Structure Water:

The angle of the molecule of water is 104.50, as the water passes through the Alpha Spin, the angle changes to 109.50 then it becomes stable at the angle of 1200 forming a hexagonal structure known as a liquid crystal, structured water or bio-water (living water). The resulting structured water cluster is then able to penetrate the cellular membrane easier than non-structured water avoiding oxidation and oxidative stress that results in the process of aging.

20. Does AlphaSpin got any side effects?

The AlphaSpin does not cause nor induce side effects. The energy that is transferred and used by the body in the most effective and efficient way following the body's own wisdom. Spinning energy reminds the body of its own self-healing capability as it connects space and time.

21. Can you have an overdose of energy from using the AlphaSpin.

The simple answer is no. The reason being, the AlphaSpin works by means of spinning energy and this energy is found everywhere. , The body in its infinite wisdom will only use the energy that it needs to reestablish harmony a natural state of wellness and wellbeing.
